

Agitated Nutsche Filter Dryer

★ *High Efficiency, Safety and Low Product Loss*

One machine with multiple functions, which integrates pulping, washing and filtering functions into one machine, which reduces costs and saves money.

High Pressure Reactor

★ *Safety, Accuracy, Anti-corrosion*

• CJF-1L

• FCF-50L

Solvent Recovery Machine

★ *Environmental Protection, Save Cost*
Explosion-proof Safety

• T-250Ex

Catalogues

Stainless Steel Reactor

★ Easy to Operate and Strong Stability

• SS-20L • SS-40L • SS-60L

Closed Loop Extractor

★ Butane Extraction

• 2LB • 10LB

Stainless Steel Molecular Distillation

★ Distillation: Low Temperature and High Vacuum

• KDBM-060

Decarboxylation Reactor

★ Explosion Proof and Customizable

• SSC-100L • SSCC-50L

Centrifuge

★ Solid-liquid Separation

• PPTD-50

Lenticular Filter / Top Entry Filter

★ Easy Installation, Long Lasting

• Lenticular Filter • Top Entry Filter

Spray Dryer

★ Nanomolecular Grade Powder

• SD-2L • LPG-10L

Falling Film Evaporation

★ Large Capacity Evaporation

• Front Display • Back Display

Vacuum Concentrator

★ Efficiently Concentrates Samples, Saving Time

• Vacuum Concentrator-Conical • Vacuum Concentrator-Spherical
